I want to thank the staff at the EPA for the endless work you do (regretfully with significant opposition from companies that knowingly poison the world we live in....and well as uneducated general public) I believe your work to be among the most important - if not THE most important work there is.

My public comment with regard to Wyckoff clean up in Bainbridge: Wyckoff knowingly polluted our water,air and land here below us in West Seattle. I regard Wyckoff as grossly negligent and irresponsible. They should pay - for generations - WYCKOFF DOLLARS ! - for the harm they have done to our water, air and land. They can destroyed the health and well being of wildlife, humans and the planet.

I am soooooooooo angry !

Wyckoff: clean it up and pay for it !!
